

HP LASERJET PRO M1136 MULTIFUNCTION PRINTER

Overview

Smart, multifunctional, compact and easy to install the LASERJET PRO M1136 is HP's most affordable 3in1 laser multifunction printer (MFP). Featuring industry-first HP Auto-On/Auto-Off Technology and industry-first HP Smart Install Technology, the LASERJET PRO M1136 is designed to perfectly meet the diverse daily office needs of SOHO & SMB users. Print, copy and scan with one compact machine—and reduce your environmental impact with energy-saving features.

Key features and benefits

- Conserve energy with industry-first HP Auto-On/Auto-Off Technology¹
 - Reduces energy use by up to three times compared to sleep mode.²
 - Turns your MFP on when you need it and off when you don't. Owners can configure their device to automatically turn off either when it senses there is no activity after a set interval, or at a predetermined time each day.
 - Works in concert with Instant-On Technology, which enables customers to produce the first page faster when a printer is coming out of Auto-Off mode.
- Get up and running quickly and easily with Industry-first HP Smart Install Technology
 - Smart Install allows for simple and quick product set-up right out of the box.
 - Begin printing in as little as two minutes by simply connecting a netbook, notebook or desktop PC (not applicable for Mac & Linux) to the printer with a USB cable and installation will begin automatically – no CD required.³
 - Perfect for customers who use netbooks or other PCs that do not have CD drives.

¹ HP Auto-On and Auto-Off capabilities subject to printer and settings

² For desktop HP LaserJet printers, industry-first HP Auto-On/Auto-Off Technology helps imaging and printing customers use 3 times less energy than in a device's normal sleep mode, automatically powering down printers after a period of inactivity and putting them into a mode that uses less than one watt of power. HP will pre-configure printers to power down automatically after a set amount of time, ranging from one to 30 minutes, though industry-first HP Auto-On/Auto-Off Technology offers customers the ability to customize and pre-set their own off times for the printer. This proprietary technology works in concert with Instant-on Technology, which enables customers to produce the first page faster when a printer is coming out of sleep mode.

³ Actual time depends on computer hardware and OS environment.

- Get more done—affordably—with a full-featured MFP
 - Print professional-quality documents with crisp text and sharp images.
 - Print at 19 ppm letter/18 ppm (A4) and start fast (first-page-out in 8.5 seconds) with Instant-On Technology.
 - Set up and start printing fast with an easy-to-use control panel.
- Reduce your impact and protect your bottom line
 - Get up to 50 percent energy savings with Instant-on Technology⁴ and save up to four times the energy with Instant-on Copy.⁵
 - Get the services, solutions, software and support of HP Total Care.
 - Reduce your impact—pre-installed cartridges decrease packaging. Recycle easily with HP Planet Partners.⁶
 - Save energy with an ENERGY STAR® qualified MFP.
